CAMPUS NOTES

CHEMICAL

Professor Withrow was invited to be the speaker on the program for the Engineers' Week of Ohio Northern University at Ada, Ohio. His topic was "The Service of Chemical Engineering to Industry and the Other Engineering Fields."

ELECTRICAL

During the week of March 9 George Leydorf and Charles Lucal attended the Middle Eastern Convention of the A. I. E. E. held at Pittsburgh. Several members of the department faculty also attended the meeting. The newly elected officers of the Student Branch are Charles Lucal, senior chairman; Carl Simon, senior vice chairman; George Moyer, secretary-treasurer.

Mr. S. D. Fendley was the speaker for the meeting of February 26. Mr. Fendley is an industrial control specialist of the General Electric Company. He spoke on "Vacuum Tubes in Industry." The various types of tubes such as thyratrons, pliatrons, and photo cells, and their applications and uses were discussed by him.

During the past month several members of the faculty have appeared before the microphone of WEOA to give educational talks on subjects pertaining to engineering. Professor Galen F. Oman, department of architecture, spoke on the topic, "Build Your Own Home." The next talk of the series was, "Are the Brakes of Your Automobile in Good Condition?" by C. P. Roberts, mechanical engineering department. "The Greatest Scientific and Engineering Museum in the World" was the subject of a fascinating talk by Professor R. M. King, department of ceramic engineering.

A series of practical talks on interesting phases of chemistry has been arranged by Phi Lambda Upsilon honorary chemical fraternity. The talks will be given by members of the department of chemistry and will be heard during the last week of the month.

INDUSTRIAL

During the spring vacation a group of about fifty industrial engineers took the annual inspection trip to Cleveland, Ohio. The party had a schedule which proved very interesting to those who went. The following companies were visited: Lincoln Electric Co., Cleveland Twist Drill Co., American Steel and Wire Co., White Motor Co., Richmond Bros. Co., Ferro Machine and Foundry Co., Winton Engine Co., Nela Park, and Fisher Body Corporation.

At a recent meeting of the Student Society of Industrial Engineers, an election was held for the officers who will hold term for the succeeding year. These men were, Henry Carroll, president; Howard Jordan, vice president; Edger Routgong, treasurer; Hillis Worstell, secretary; and James Hart, junior representative to Engineers' Council.

The Student Branch of the American Society of Mechanical Engineers held its election of officers for the Spring Quarter at their last meeting. Fred Woodward, president-elect, will take the place of Joe Smith who presided throughout the Winter Quarter.
